10:00 AM – Steering Committee questions/comments

11:00 Questions to the Steering Committee by Outreach Staff

11:30 Open discussion, legislative action planning, and working lunch

Questions to Members of the Steering Committee

- What is the definition of outreach to the Mesonet SC members?
- What is the role of outreach and what are the benefits to the Mesonet of these programs?
- What are the two most important functions of outreach?
- Are we serving the right audiences now? Is our focus saving lives, saving costs, public good, economic development, or something else? What audiences should we stay away from?
- Where is the low-hanging fruit for future audiences to serve?
- What do you consider “success” in an outreach program? What does it do (or look like)?
- Should we look for grants with or without buy in from the Steering Committee? If we succeed, is the SC willing to consider keeping the products and services going? Or should we move on to something else when a grant ends?
- Where does OK-FIRE fit into the Mesonet’s program if it receives permanent state funding separate from (in competition with?) the Mesonet?
- Is it important to blend OU (red) and OSU (orange) outreach programs into a blended (blue) outreach program?
